Irma Fair Surpasses All Former Events in Attendance and Quality of Entries

The tenth annual fair and exhibition of the Irma Agricultural Society was held Friday, August 15th, and was a most pronounced success in every way, eclipsing its predecessors in attendance, quantity and quality of exhibits, as well as sports program as a baseball tournament was held in connection which helped draw a crowd and furnish amusement and recreation.

Every department of the fair was well represented. The live stock were particularly good. The display of horses was strong especially in the agricultural sections. The cattle, sheep and swine exhibits were likewise very good the cattle being among the finest shown here. The busy harvest season being on in full swing perhaps had a tendency to keep many from bringing in exhibits and attending the fair who otherwise would have been in, as the weather was ideal both for the fair and harvesting.

Roots and vegetables of every known variety were shown were of a very high standard. The dry spell in the growing season had had seemingly no bad effects on them as a whole and the excellent showing in these classes was pleasing and surprising.

Ladies' work of all description were shown in the big tent in large numbers and made a good display of what the ladies in the Irma district do in their spare time. Competition in all classes and descriptions of fancy work and domestic products was keen and kept the judges guessing making the awards.

There was a fine display of sheaf grains and grasses which would have been creditable to a more favorable season.

The judges were well pleased with the class of exhibits shown at the fair and stated that the classes as a whole compared very favourably with exhibits at neighboring fairs, and warmly congratulated the community and district and fair management upon the success of the tenth annual exhibition.

The officers for this year were President, C. A. Toll; 1st V-P. J. H. Elliott; 2nd V-P. O. Steffenson; 3rd V-P. C. Z. Costin, Secretary-treas. J. W. Milburn.

The Board of Directors consist of J. G. Clark, A. A. Fischer, W. T. Barber, James Fenton, W. H. King, Mrs. J. G. Clark, Mrs. J. H. Elliott, A. W. Toll, Thos. Knowles, B. A. Cleland, J. A. Thompson, C. T. Hill, R. G. Williamson, C. J. Knudson, Thos. Yarr, H. Caston, J. W. Matthew, R. Smallwood, Mrs. C. A. Toll, Miss M. E. Milburn.

Ground committee, Irma Board of Trade and C. T. Hill, Ground marshalls, W. B. Peterson and T. N. Sellers; Ground stewards, W. T. Barber and J. A. Tripp; Cattle steward, G. A. Tripp; Hog and Sheep steward, A. A. Fischer; Vegetable steward, Mr. Pennock; Dairy Product Steward, A. W. Toll; Domestic Product stewards, Mrs. A. W. Toll and Mrs. W. H. King; Fancy work stewards, Mrs. J. G. Clark and Mrs. G. A. Tripp; Stock Judging steward, K. J. Tate.

A full list of Prize-Winners at the fair will be published next week, the printers being unable to get the list set in time for this issue.

Irma Wins From Hardisty and Viking on Aug. 15th

The first game of the day was between Irma and Hardisty. The latter put a rather weak team on the diamond and the Irma boys pounded the ball all over the lot. By the end of the seventh inning they had rolled up 15 runs to Hardisty's five.

The second game was between Mannville and Viking. It was a more even game resulting in a win for Viking 10-6.

The finals brought together the two old rivals Irma and Viking and the boys of both teams put up a good brand of ball. It was the kind of a game that makes the fans sit up and take notice. Evan Jones and Harvey pitched their usual good brand of twirling while Anderson had lots of stuff on the ball and with good fielding and support won his game 3-1. The game was called at the end of the fifth on account of darkness. The batting order of the teams was as follows:

Viking: Jones, Harvey, Loughlin, Sholstad, Hoskin, Carman, Scott, Thunell, Hilliker.

Irma: Johnson, Klipfinger, Henry, Giltner, Graham, Ewers, Jones, Clark, Anderson.

Didn't Hurt the Cow.

Saturday afternoon one of the men creating the new device for the Loperol Oil Co. near Carleton Place brought some tools to the Viking and Battle Creek oil well south east of Irma. On his way back a cow on Strawberry Plains objected to the stranger using all the road and was bumped by the car. The radiator was badly damaged but the occupants of the car were unhurt. Another car was procured to take the party to Hardisty and an outfit sent out to repair the car and bring it in. The cow was unhurt.

Larry and Willoby Shaffner left last Tuesday with a haying outfit for Westlock, Alta.

Irma Schools Open Monday

School will re-open Monday Aug 25th with a substitute in charge for a week when the duties will be taken up by a teacher engaged by the board.

LOCAL NEWS

Mrs. J. W. Graydon returned from Edmonton last Thursday.

Miss M. McFarland spent a few days at Edmonton this week.

Mrs. Skiles and Archie are visiting in town.

C. T. Hill has invested in a new McCormick binder.

Geo. Murray of Trafalgar was in town Wednesday visiting his sister Mrs. Lyle.

The Co-op has placed an order for preserving fruit direct from B. C. See them for your supply.

The Irma ladies aid met at the home of Mrs. C. T. Hill last Wednesday afternoon.

R. Love has been spending a few days in Edmonton renewing acquaintances.

Miss M. Clark returned to Irma Monday after spending her vacation at Calgary.

Miss Ruth Breckon left Monday for Bronte, Ont. where she intends making her home for some time.

Senator Shaffner of Manitoba spent Sunday with his brother A. D. Shaffner returning east on Monday.

Mrs. J. Marshall was taken to Edmonton hospital Sunday night and from last reports was doing nicely.

Miss Young, teacher at Alma Mater school returned to Irma Monday after spending her vacation in Edmonton and district.

Mrs. Jas. Cummings and Miss Ester Cummings have been visiting Mrs. A. A. Dickson and returned to Edmonton Sunday evening.

Mrs. W. H. King returned home last Friday after spending about a month at Vancouver, Seattle and Hazelton.

The farmers are all busy harvesting. The late rains have improved conditions and instead of having to ship in seed for next spring we will be able to keep all the elevators busy for some time.

W. Kitchen has been busy this week setting up binders and mowers. C. T. Hill and E. I. Foss have bought new binders and Geo. Graham has bought a new mower and rake.

Mrs. E. J. Armstrong and the Misses Ester and Helen Armstrong of Edmonton are visiting at the home of Mr. and Mrs. Jas. Fenton. Mrs. Armstrong is a sister of Mr. Fenton.

U.F.W.A. Will Serve Ice Cream Saturday

The U.F.W.A. are serving ice cream and cake Saturday afternoon at the Hardy & Dickson garage. They intend serving every other Saturday until cold weather sets in. Don't forget.

Gets Beamed With Stove Lid.

Saturday night some of the men working on the G. T. P. extra gang got excited over a game of card. The row ended by one of the men being hit on the head with a stove lid. Dr. McGregor was called to stitch the wound and the man left Sunday on the west bound train.

Motor to Irma.

Mr. and Mrs. W. Thompson of Canfield, Ontario and Messrs. Collins and Geo. Thompson of Carleton Place arrived in Irma Sunday and spent the afternoon at the home of Mr. and Mrs. W. H. King. Mr. and Mrs. Thompson are on their way to the coast and will probably stop off and spend a few days at Irma on their way back.

Work on Grade Halted.

A connection rod broke on the steam shovel Monday afternoon necessitating the whole machine being off until a new one could be sent from Edmonton. It looks as though it would take two weeks yet to finish the leveling they are doing in the yard.

Price of Wheat Fixed at \$2.15

Ottawa, Aug. 18—Sir George Foster announced at three o'clock Monday afternoon that the wheat board of control has recommended an initial payment of \$2.15 a bushel to the farmers for wheat on the basis of No. 1 Northern, Fort William. The government has approved the price.

Breaks Arm.

J. P. Cragg met with an accident last Friday when rounding up his horses. The horse he was riding made a quick turn throwing him and breaking his right arm.

MAGIC BAKING POWDER

Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substitutes.

Flying Boat Wrecked

Wireless Operator Was Killed. Six Passengers Were Rescued.

LONDON.—The flying boat Felixstowe Fury, which was due to start for Cape Town, South Africa, on an eight-thousand mile flight, crashed off Felixstowe during a test flight. The wireless operator on board, Lieut. MacLeod, was killed. The six passengers were rescued.

The flying boat, one of the largest of its type yet built, side-slipped and fell into the sea 100 yards off shore. The plane crumpled under the impact with the water and was virtually submerged. MacLeod was dead, strapped in his seat, when the wrecked craft was towed ashore.

The pen might be mightier than the sword, but it isn't in it with the pretty typist.

Laugh When People Step On Your Feet

Try this Yourself then pass it along to others. It works!

Ouch! ? ? ? This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called frezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain.

He says frezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of frezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

All That Is Necessary. Prices of food have fallen 50 per cent. in Germany. You can buy a ham for \$125 if you have the money and can find the ham.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powder expels worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

"Prayer flags" are a unique labor-saving device employed by the people of Tibet. The flags are suspended on long lines, and while they are moving in the breeze they are supposed to be recording prayers for the benefit of those who put them up.

Some women marry for love, some for a home and a few to spite the other woman.

Instead Of Tea Or Coffee

buy a tin of the healthful table beverage

INSTANT POSTUM

The quality is constant and the rich, even flavor pleases.

No Raise In Price

German Trade Disappointing

Unsafe To Dispatch Merchandise Without Payment In Cash.

LONDON.—The wireless press Copenhagen correspondent writes that great hopes have been entertained in many quarters in Denmark since the armistice of a new period of enrichment through the resumption of trade with Germany, but that it is becoming evident that these hopes must be disappointing.

It is now realized that owing to Germany's critical financial position, it is highly unsafe to dispatch large quantities of merchandise to that country without payment in cash, and as this condition is rarely complied with very little business is being done. Meanwhile great satisfaction is expressed in Danish newspapers with the reported intention to establish a French Chamber of Commerce at Copenhagen.

Montreal As A Port

Handles Ocean Traffic Greater Than Any American City Except New York.

It may surprise some readers to learn that for the seven months or so during which it is open the port of Montreal handles ocean traffic greater than that of any American city except New York. Its tonnage is also steadily increasing and better methods of ice breaking have extended its season. It has strategic advantages similar to our own in being a railroad terminus and central distributing point for trade converging from a vast territory.

And Canada is alive to its great importance. The Dominion government co-operates liberally with local enterprise. Recently \$28,000,000 has been spent on terminals, dredging, docks and other things necessary to security. The department of marine is at work deepening the St. Lawrence to thirty-five feet to the sea, and the channel should be complete in a short time.

They not only talk about things, but do them, and do them well. It is another example for our congressmen to ponder, as well as an incentive to our own activity.—New York Sun.

Wireless to Bermuda.

Ottawa.—The department of the naval service announces the inauguration of a commercial wireless service between Canada and Bermuda. It has been established between the Canadian radio telegraph station at Barrington Passage, N.S., and the British government station at Bermuda, and is open for public service.

Lord Grey Likely.

LONDON.—Viscount Grey of Fallodon, who retired as head of the British foreign office in 1916, it is understood, is likely to accept the post of British ambassador to the United States.

Minard's Liniment Cures Diphtheria.

Price Of Hides Falling

Since the Government Placed an Embargo on Exports.

Ottawa.—The price of hides for the manufacture of boots and shoes is falling in Canada since the government placed an embargo on exports of hides, skins and leather, at the advice of the cost of living commissioner. The embargo was announced on August 4.

The price of hides has dropped 10c and on calfskins 20c on the Montreal market.

"This decline in the price of raw material, following the government's action, should, if it continued," said the commissioner, "obviate an advance on boots and shoes, and if continued far enough, should cause an actual decline in these prices."

Proverbs are but the offspring of practical experience.

Nothing Like It For Bronchitis And Weak Throat

Remarkable Cures in the Worst Cases Reported Daily.

Cures Without Using Drugs.

Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach dosing is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks. This soothing vapor is full of germ-destroying substances, and at the same time is a powerful healing agent. It is sent to the bronchial tubes and lungs through a skillfully devised inhaler that can be carried in the vest pocket. Simplicity itself is the keynote of this splendid treatment.

CATARHROZONE is the name of this wonderful invention that is daily curing chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs, it can't fail to cure because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. Catarrhrozone is a direct, local, scientific cure.

There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Catarrhrozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and cost \$1.00 and guaranteed; small size 50c, sample size 25c, all stockholders and druggists, or the Catarrhrozone Co., Kingston, Canada.

Chinese Boycott Japanese Goods

Evidently Giving Japan Cause For Pretty Serious Thought.

One of the very interesting things happening just now in the world is the indignant boycott of Japanese goods by the Chinese people, a form of protest which is evidently giving Japan cause for pretty serious thought. So long as the wisdom of China maintains a peaceful boycott there is, seemingly, little that Japan can do but meditate on the fact that about 75 per cent. of her exports go normally to China, and wonder how long China will stick. Meantime the Chinese newspapers counsel the public against any action that can be construed as a departure from this peaceful procedure, and in nearly all the advertisements of Chinese merchants appears the phrase, "We sell no Japanese goods." A peaceful boycott would be called a cautious kind of revolution, and as once said Confucius, "The cautious seldom err."—Christian Science Monitor.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying the best of remedies—Mother Graves' Worm Expeller.

Shah Gets Out of Persia. The Shah of Persia with a suite of twenty, will leave Teheran for Switzerland, it is learned here. Forouz Kahn has been appointed minister of foreign affairs of Persia, succeeding Mochaffer El Mulk, who has been named minister at Rome.

Not All Lost. Flo: "You can't believe everything you hear." Gertrie: "No, but you can repeat it."

MURDERED.

Put right out of business, a whole family of corns by Putnam's Corn Extractor, which cures corns and warts in one day. No pain or sore if Putnam's is used. Refuse substitutes, 25c. per bottle at all dealers.

Independence Is Real

South Africa Gains Advantage Through Being of British Empire.

LONDON.—The Times' Capetown correspondent quotes the Cape Times comment on Lord Milner's Oxford speech when his lordship emphasized the position of independence of the dominions within the league of nations.

"The independence which South Africa has gained," says the Cape Times, "is a real and tangible thing which owes its being to the existence of the link with the British Empire. The independence for which some cry is unreal and intangible and can never be achieved and if realizable would find South Africa short of the capacity to develop and ruinously handicapped in the struggles ahead."

A man thinks that there is only one man in the world whose whistling is not a nuisance.

W. N. U. 1276

Government Explains Papal Peace Proposal

Britain Issues White Paper Showing Germany Conceded Nothing.

LONDON.—A "white paper" issued by the government deals with the papal peace proposal to the belligerents in August, 1917. The Pope, in his note, said that before everything, the fundamental point must be that the moral force of right should be substituted for the material force of force, and pointed out that this would entail a general agreement for the simultaneous and reciprocal reduction of armaments and the institution of the principle of arbitration.

The pontiff stipulated for complete evacuation of Belgian and French territory with the complete political, military and economic independence of Belgium, restitution of the German colonies and complete freedom of the seas.

Foreign Minister Balfour, the white paper continues, in acknowledging the Pope's note, intimated that until the central empires and their allies stated officially how far they were willing to go in the matter of reparation and restitution, and announce their war aims and offered effective guarantees against a repetition of the horrors of the war, the British government considered it most unlikely any progress toward peace could be made. The French government intimated that its views coincided with those expressed by Mr. Balfour.

Dr. George Michaelis, then German chancellor, replying for Germany, subscribed to the idea of enforced arbitration, the limitation of armaments and freedom of the seas, but said no word on the subject of evacuation of Belgium and France or Belgian independence. He merely expressed readiness for peace on conditions compatible with justice and equity.

This and the Austrian reply, which was similarly couched, went to Premier Lloyd George and formally acknowledged. There the matter ended, the "white paper" says.

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is given the baby may be beyond all human help before the mother realizes the danger. Summer is the season when diarrhoea, cholera, infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, sweeten the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Planned Soviet Rule for London.

LONDON.—Seditious documents were seized by the police in a raid on London's western suburb of Acton. The papers captured dealt with a suggested seizure of arms and ammunition from the military stores by revolutionaries and the establishment of a soviet government in London.

Corns cripple the feet and make walking a torture, yet sure relief is within reach of all.

An Apt Illustration

Lecturer Tells How To Succeed As a Farmer.

A young man approached a lecturer who had been relating some interesting stories about romance in farming. "How can I succeed as a farmer?" What in your opinion is the first thing I must do so that I may be more than an ordinary hand-to-mouth farm owner?" he inquired.

"Fall in love," answered the lecturer. "What?" gasped the young man. "I mean just that," the lecturer went on. "Love must precede everything else. You must fall in love with farm work—actually fall in love head-over-heels. It must be more than mere liking. You must think—"

The lecturer paused. "Do you love a girl?" he asked suddenly.

Realizing that the lecturer was not General Byng for Canada! Now that the Duke of Devonshire's tenure of office as Governor-General of Canada is coming to a close, Canadians are turning their thoughts to the selection of a successor. There is a growing feeling, I hear, that the choice should fall on General Sir Julian Byng, who as Commander of the Canadian Corps endeared himself to all Canadians.—London Evening Standard.

Poverty is no disgrace, but it's a mighty good excuse for heading off a borrower.

Cool Comfort

It's Sunday morning—blazing hot, and pretty near a whole day before you for rest and recreation.

First, then—a shave. Whether you are going for a spin in the car, taking the family to church or visiting a neighbour, you cannot go with a day's growth of beard on your chin.

The thought of shaving won't be irksome if you own a Gillette Safety Razor—rather, you think of five minutes' cool comfort with the highest type of shaving edge ever developed. No man in the world can command a keener blade than the one you slip into your Gillette.

And if Gillette shaving gives you an added joy to your Sunday, why not take five minutes every morning for a clean shave as the start for a better day's work.

For \$5.00—the price of the Gillette Safety Razor—you have your choice of the Standard Gillette sets, the Pocket Edition sets (just as perfect, but more compact), and the Bulldog Gillette with the stocky grip. Ask to see them TODAY at the jewellers, druggists or hardware dealers.

Gillette Safety Razor

War Saving Stamps Are Selling Well

Campaign In Canada Is Progressing Most Favorably.

That the War Savings Stamp Campaign in Canada is progressing most favorably is shown by comparing the per capita sales for the month of May, against those for the same period in the United States. In Canada during the month of May the per capita sales amounted to .055 while in the United States they were .06.

Considering that in the United States the War Savings Stamp Campaign commenced one year in advance of the campaign in Canada and that our American cousins had the stimulus of war propaganda for about a year to introduce the Thrift Stamp, the comparison is very favorable to this country.

Minard's Liniment Cures Colds, Etc.

asking out of idle curiosity or with a desire to be important, the young man blushed and answered, "I do."

"Well," the speaker went on, "I don't have to talk to you. You know what I mean if you really love the girl. That means you are not only ready but eager to give her your best—all you have. You think of her by day and night. You want to make her life richer. You desire to use all your mental and physical and moral strength in her service. You want to live your life to the fullest and best so that you can help her. That's what you have to do with your farm."—Thomas Decker.

While the fool takes things as they come, the wise guy goes after what he wants.

Expelled Jews Helped Industries

Russia Provided Poland With Human Factor of Great Importance.

An odd bit of commercial history comes to light with the granting of citizenship to Jews in Poland, and shows how Russia, in expelling the race from Moscow, provided Poland with a human factor of great importance in developing her own industrial resources. Politically Poland lay helpless in the grip of her powerful neighbor, resisting as best she might the neighbor's determination to destroy the last vestige of Polish national existence. Industrially, on the other hand, her coal and iron ore districts had developed Polish centers of manufacture superior to those of Russia, but dependent for success on the sale of their products in Russian markets. Jews came from Moscow who were familiar with Russian trade conditions, had already established personal trade relations with Russian cities, and were admirably fitted to develop a commercial program between the two countries. These men became the natural intermediaries between Poles and Russians in business, and their expulsion from Russia is doubtless one reason for the prosperity of Polish industries at Lodz, Warsaw and Petrokow.—Christian Science Monitor.

If a man is your friend he doesn't have to tell you so.

All changes of advertisements must be in not later than Tuesday to insure change for that week.

Friday, Aug. 22nd, 1919

The Working of The Estray Animals Ordinance.

When a farmer finds that he has on his premises an estray horse or cattle beast, the owner of which is unknown to him it is his first duty to call in his nearest brandreader who will examine it for brands, and report to the Live Stock Commissioner, Department of Agriculture, so that notice may be published in the supplement to the Alberta Gazette. In addition to this the finder shall have a copy of the notice prepared by the brandreader, inserted in three successive weekly issues of the nearest newspaper. After the animal has been advertised for sixty days and no one has laid claim to it the finder should make application to the nearest Justice of the Peace to have the animal sold.

After the expenses have been paid, the balance should be returned to the Department. Expenses include fees to the finder, fifteen cents per day for keep from the 15th day of April, in no case to exceed \$10.00, there being no allowance for keep from the 15th day of April until the 15th day of November. Ten cents per mile is allowed for each mile necessarily travelled in taking the animal to a public place of sale and \$1.50 for advertising the animal in the nearest local paper.

The fees for reading the brand and preparing a notice to be sent to the Department of Agriculture is \$2.00. For each mile necessarily travelled over ten miles, in no case to exceed thirty miles, the allowance is ten cents per mile, and \$1.00 for branding the animal at the time of sale. There is also paid to the Justice of the Peace \$2.00, for preparing the notices of the sale and for preparing the application, and administering the oath, also five percent commission of the amount realized from the sale of the animal. He is reimbursed for postage and exchange actually expended.

A copy of the Estray Animals Ordinance will be mailed to anyone upon application to the Live Stock Commissioner.

Normal Schools Open Later.

On July first the reciprocal arrangement between the four Western provinces for the recognition of teachers' certificates came into effect. Now teachers trained in any of these provinces receive similar standing in the others. This has resulted in a getting together of those responsible for the teacher-training policies of the various provinces. In a general way standardization has taken place in the length of the training required for the various certificates, the content of the courses and the basis of admission. Hereafter, in all the provinces the period of training will be eight months.

For a long time it has been recognized that the four months training was entirely inadequate. The course was crowded and hurried and it was possible for very immature young people to get the certificate to teach and still be very indifferently equipped. The lengthened course will mean a more complete equipment. In addition to more detailed courses in the various subjects to be taught there will be greater

opportunity for demonstrations by the Normal and Practice Staffs, as well as for more practice teaching on the part of the teachers in training. The longer course will cost more money. This will mean that young men and women will go into the work of teaching seriously and with the idea of devoting several years to this type of service. The larger period of training cannot but result in better teachers and a more stable profession.

There are two Normal Schools in Alberta, one at Camrose and the other at Calgary. Both have good buildings and are well staffed. The courses offered are broadly cultural as well as vocational, and are well worth while aside altogether from the certificates to which they lead. It is estimated that the additional four months will increase the cost by about one-half, that is that the total expense, exclusive of clothing, will run from \$375.00 to \$450.00.

Enrolment for the next session of the Normal Schools, which opens on September 2nd, is now taking place. All inquiries concerning admission should be addressed to the Deputy Minister, Department of Education, Edmonton, and those concerning living accommodations to the Principals at the Schools.

Why Premier Stewart permits any such imposition on the public purse as the Public Utilities Commission of Alberta to continue to exist in its present form is a puzzle. If the province has to pension off these has-beens, why cannot it be done by sticking them in some place where they can do no harm?

One Public Utility Commissioner who would be awake half the time could do the work of the two, plus the secretary, and do it better if left unhampered by political pull. But the province is paying Bulver, Carpenter and Reilly over \$200,000 per year and maintaining them in a fine set of offices at heavy rent for no apparent purpose other than to serve in small political dodges.

The thing is a scandal even in Government circles in Edmonton and when matters get noticeably bad in Edmonton they have to be pretty putrid. —Vegreville Observer.

The Flour Situation.

We would advise buying some Royal Household Flour now for your next six months requirements, if the price of wheat is left open flour may be higher. Anyhow you can't be far wrong in having a good supply. Of the Best flour on hand. —Irma Co-op Co Ltd.

New Restaurant Opened.

Mr. E. E. Sharkey has bought the building on west side of Main Street next to Swifts cream station, and has fitted it up as a first class restaurant. Mr. Sharkey is an old restaurant man and his wife has had three years experience as cook in one of the best hotels in Edmonton. He intends building an addition to the building when he will be able to supply about seven rooms.

ORBINDALE

Last Friday a local branch of the U.F.A. was formed at Orbindale. Mr. J. G. Clarke, a director of the Irma local was present, and gave a short address, in which in a few concise remarks he said more about the U.F.A. organization than some people had ever heard before; from which one might well conclude that even though there might not be any visible results from the local such as care of apples, twine or hogs, that that could be no reason why anyone should be dissatisfied, and say the two dollars was throw away, because as he said, the more locals and members there were, the stronger it made the hands of the men in Ottawa, who were legislating to put the farmer on an equal footing with the manufacturers.

Cribs have improved in a way that has astonished some people and binders that had been promised another years rest are having the dust and cobwebs wiped off them.

"Silence gives consent" a young man remarked when he asked a deaf and dumb girl for a kiss.

The actors have gone on strike in New York. Bad actors as it were.

VIKING

Daveiland held a baseball tournament in connection with the agricultural fair last Wednesday and teams from Viking, Sedgewick, Kelsey and Bawlf were on the job to cop the honors. Viking and Sedgewick drew for the first game and the tournament was on. To make a long story short Viking shut out Sedgewick 10 to 0 in seven innings without extending themselves to do it. Only one Sedgewick player reached second base, the rest were either struck out, caught stealing second, or retired at first. The Viking players played a snappy game all the way. Playford, the star pitcher on the C. P. R. line was knocked out of the box in the second inning.

Kelsey defeated Bawlf in the second game of the tournament which stacked them up against Viking for the final game.

Slavik's Savages had one bad inning against Kelsey, otherwise they would have registered another shut-out. After seven innings the score was 20 to 2 in favor of Viking, and the tournament was over. Kelsey used Hanson, a pitcher from Camrose against Viking but he fared no better than Playford and had to be taken out in the third inning.

On Friday, Manager Slavik took a patched up team of tired athletes to Irma and defeated Mannville 10 to 6 with Lee Harvey in the box. In the final game against Irma, who defeated Hardisty 15 to 4. Viking did not play their usual winning game. When four and a half innings were played the umpire had to call the game on account of darkness and awarded first place to Irma. The score at this stage was 3 to 1 in Irma's favor. We understand that Manager Slavik offered to put up a \$100.00 side bet that his team could defeat Irma anywhere, anytime, but there were no takers.

The citizens band committee met last Friday and transacted business in connection with the band that will be going in town soon. An additional \$200.00 will be required to outfit the band to start with in addition to the grant from the council. This sum the committee will try to raise by popular subscriptions in the town and district. A practice hall is also being sought. The new instruments are expected soon so the bandsmen should be in readiness to begin practice anytime.

Mr. and Mrs. S.H. Somersall have moved to Edmonton where Mr. Somersall has accepted a position with the Marshall-Wells Co. For the past five years Mr. Somersall has been local manager of the Alberta lumber yard. Mrs. Somersall has been actively engaged in Red Cross work and other benevolent and patriotic organizations. Regret is expressed among a host of friends at their departure from our town but good wishes for their continued welfare goes with them in their new location.

Grain cutting is in full swing in this district and from reports coming in there will be considerable grain threshed this fall. Local implement dealers report the sale of several binders already.

The Angus Ross family have moved from Edmonton into their new residence on 4th avenue west. Mr. Ross will have charge of the Bawlf elevator, Mr. and Mrs. Ross formerly resided here and are welcomed back by a host of friends.

A baseball competition is going to be held at Holden on Sept. 18th in connection with the fall fair. 1st money \$150.00, second \$50.00, teams from Viking, Loughheed, Sedgewick, Killam and Holden are already entered.

Hughie Farmer, one of the boys from here who heard the call of the Motherland early in the war, arrived last Thursday from overseas. His brother James Farmer was killed in action. Hughie may locate in this district again.

More or Less Funny

IT HAPPENED IN VIKING
Susie—"He put his arm around me five times last night."
Rosie—"Some arm."

One of our young men called on a young lady the other evening and he is wondering why she treats him so cool ever since. During his call she played on the piano and sang songs, and finally turned to him and asked if he liked to hear her sing. "Yes," he said, "it makes me forget all of my other troubles."

A young man in Ryley on going to see what her papa thought about their getting married, passionately exclaimed: "I love her. Why I would die for her. For one soft glance from those sweet eyes I would hurl myself from a cliff and perish—a bruised mass upon the rocks two hundred feet below." The old man shook his head: "I'm something of a liar myself," he said, "and one is enough for a small family like mine."

Duck Season Opens September 1st.

The shooting season for ducks, geese, partridges, etc. opens on Labor Day, September 1st. While ducks seem a little scarce at the present time, old time hunters say when the shooting commences there'll be lots of ducks around.

Long Looked For Highway Started.

Rumor has it that the Department of Municipal Affairs have started work on the main highway from Saskatoon to Edmonton. Charles Kirby was supposed to start work on a stretch of 85 miles commencing at the Saskatchewan boundary going westward for 85 miles. Several rumors have been circulating during the past two years that something would be done with the main road from Wainwright to Viking but so far apparently the only money spent has been spent by officials of the department going over the road in cars and making promises of an early start. A party of prominent stock men were in Irma a few days ago who had travelled over 7000 miles since early spring and they were very emphatic in their expression of the condition of the roads. Of the whole 7000 miles they claim the worst that they travelled was from Fabian hill to Kinsella. We hope something will be done soon to remedy this stretch of important highway.

Protection and Profit

When money is in a Savings Account in The Merchants Bank, it is absolutely safe from loss, as far as you are concerned. All the time it is here, it is earning interest — so that the bank actually pays you to let it take care of your money. Don't carry unneeded sums on your person or hide them at home. Protect them against loss, theft and fire by opening a savings account.

THE MERCHANTS BANK OF CANADA

Head Office: Montreal. IRMA BRANCH

W. MASSON, Manager.

When You Build

a house, barn, garage or any other building you are making a permanent investment. In buying your material the most important feature to be considered is the

Quality

When you buy your material from us you can come into our lumber yard and personally look over the quality of the material you are to receive. You can have the benefit of our experience in selecting the best kind of quality and you will have the satisfaction of knowing that everything that goes into your building is exactly suited for the purpose where it is to be used.

Service

is the help which, we, right here at home, can render you in connection with your building. This means more than just the prompt delivery of your materials. It means the assistance we can give you in the selection of the proper materials to go into your building and in the solving of the many problems which are bound to come up during the construction of your building.

Price

depends upon the quality of the material which goes into your building. Good material will result in a substantial building and is, therefore, the cheapest in the end.

Solving British Labor Problems

London. — With the feature of direct action by the triple alliance in halting a strike removed, and the prospect of a speedy resumption of work in the Yorkshire coalfields, the labor situation is distinctly improved. According to George Nicol Barnes, the Labor representative in the war cabinet, the labor situation gradually is becoming more normal and the nation is to be congratulated in having gone thus far along the troubled road. Unemployment, Mr. Barnes added, was down to half the figure of last May, and the workers generally were showing a desire to avoid extreme and illegal measures to obtain their desires. Premier Lloyd George is said to be particularly pleased with the way things are going, and his promised statement to parliament, defining the government's trade policy, is being awaited with great interest.

It is asserted that Lloyd George will undertake that the admiralty, like the war office, shall make sweeping reductions in its estimates. The minister of labor announces that a proposal is being considered in the interest of the general community, providing for the introduction of legislation making strikes and lockouts illegal unless one week's notice in writing is given to enable an enquiry into the situation causing discord and an attempt at its settlement. This program, it is said, will be strongly resented by a large portion of the laborers. The Yorkshire miners are not all willing to resume work. Ten thousand men in the Pontefract district voted against resuming work, and it is said that in other districts the miners have not yet reached a decision as to whether they will return to their labors.

Taking Some Action In U.S.

Greocer Fined \$500 For Selling Sugar At 15 Cents Per Pound.

Washington. — Important new developments in the government's fight to reduce the high cost of living have now been made public.

One of the most interesting was the announcement by Attorney-General Palmer that the first federal conviction for profiteering had been obtained. District Attorney Lacey telegraphed from Birmingham, N.Y., that a retail grocer had been fined \$500 for selling sugar at 15 cents a pound. No details were given and the law under which the case was brought was not known here.

"A few good cases of profiteering in each state will settle that trouble," Mr. Palmer remarked. In order to bring to book persons guilty of raising prices exorbitantly or hoarding food to advance prices, Mr. Palmer submitted to the agricultural committees of congress the draft of an amendment to the Food Control act extending its provisions to clothing and containers of foods and feeds, and providing a penalty of \$5,000 fine or two years' imprisonment or both for violation of the law.

Use Secret Service.

Washington. — President Wilson has asked congress for authority to use the secret service in running down profiteers and food hoarders.

Farmers Give Opinion Before Wheat Board

Winnipeg. — The Canadian wheat board says it hopes to be in a position to make public the plans and regulations for the handling of the 1919 wheat crop some time this week.

"In the meantime," the board says in its statement, "in order to obviate undue hardship to the producer, the Canadian wheat board suggests that, temporarily, farmers should deliver their wheat to the elevators and obtain storage tickets therefor. The elevator companies or banks will undoubtedly make satisfactory advances against these storage tickets. When later the regulations and methods in connection with the pooling system are known, the farmers can convert the storage tickets issued by the elevator companies into cash tickets and secure the initial payment, as fixed by the board, and receipts enabling them to obtain participation certificates at a later date."

What might be construed as a veiled threat on the part of the farmers to go on strike if the government fixes the initial price of wheat at anything less than the \$2.26 guaranteed by the United States to its producers, was made by J. K. McLennan, representing the United Farmers of Ontario, at the open session of the Canadian Wheat board in the Winnipeg Grain Exchange.

"We are facing a short crop," he said. "If the \$1.75 initial price rules, we may find the crop returns still shorter. Strikes are popular and the farmers might be inclined to catch on. The farmers are cross already." The board room was packed to the doors with the representatives of various interests, including millers, bakers, consumers, farmers, grain growers and board officials. James Stewart, chairman of the board, presided. The meeting was called for the purpose of ascertaining the will of those interested in the handling

and marketing of the 1919 grain crop of Canada, as well as that of the general public.

Other outstanding features of the meeting were:

An emphatic denial from the chairman that the initial price had been fixed by the government at \$1.75; he declared that such a price had not even been considered.

A resolution from grain growers of Little Souris strongly condemning and denouncing the scheme as impracticable and unsound economics and demanding that if the government is determined to handle the 1919 wheat crop that the same price as last year be set.

A violent attack on ocean freight rates by J. K. McLennan. He declared it now costs 60 cents to get a bushel of wheat across the Atlantic, in comparison with six cents for pre-war days. Eighteen cents was the highest figure justifiable, he declared.

A further statement was made by McLennan that "there are heavy millers, big grain men and freight men in this country who are taking advantage of their positions to rake in big sums of money."

An indignant demand was made by almost all speakers that if an open market is denied the farmers and the government plan of handling the wheat is carried out, that the initial price be not made less than that of \$2.26, now ruling in the United States.

J. R. Murray, of the United Grain Growers, thought the only way to arrive at a fair price for the farmers was to give them the prices obtaining on the open world market. Otherwise nothing less than the \$2.26 of the United States should be set. If the consumer must have cheap bread, he added, in fairness let it come through a government bonus rather than at the expense of the farmers.

Allied Success In North Russia

Good News of Contest With the Bolsheviks on Russian Front.

London. — Six Bolshevik battalions were destroyed in a successful Anglo-Russian attack on the Divina river on August 10, the war office has announced. More than 1,000 prisoners, 12 field guns and many machine guns were captured. The Anglo-Russian front on the Divina was pushed forward 12 miles. The official statement reads:

"In North Russia, Anglo-Russian troops, on August 10, attacked the Bolshevik forces on the Divina with great success. All the objectives were gained. Six enemy battalions were destroyed, the troops being either killed, captured or dispersed. More than 1,000 prisoners, 12 field guns and many machine guns were captured. Our line on the Divina was advanced 12 miles to Thadrovka and Borok."

Curb Profiteering In Britain

Amendment Passed British House Empowering the Board of Trade To Fix Prices.

London. — The house of commons, after heated debate, adopted an amendment to the profiteering bill empowering the board of trade, after an investigation, to fix wholesale and retail prices. The vote was 132 to 95.

The amendment was denounced, among others, by Lord Robert Cecil, former minister of war trade, who expressed amazement that the government should accept an amendment destroying the whole basis of the bill and revolutionizing the trade of the country. Sir Donald Maclean, a Liberal member, also denounced the amendment, characterizing it as "rank socialism of the most muddled kind."

In the course of the discussion on the bill, Sir Auckland Geddes, minister for national service and reconstruction, indicated that the bill would empower the board of trade to fix prices in a case where the community was likely to be led by any combination, national or international, for the purpose of increasing prices. An amendment seeking to include profiteering in rentals within the scope of the bill was rejected.

Ferdinand's Millions

Seizure of Securities Will Not Altogether Ruin the Ex-Monarch.

Geneva. — The seizure in England of securities belonging to former King Ferdinand of Bulgaria, valued at \$2,000,000, will not altogether ruin the ex-monarch, according to reliable information obtained here. It is said that Ferdinand toward the end of 1914 took the precaution of placing his fortune abroad, mostly in neutral countries, Swiss banks, for instance, are said to hold stocks and bonds belonging to Ferdinand, valued at nearly a million pounds sterling.

Large sums were also placed in Hungary where Ferdinand is now a fugitive with his family.

To Prosecute Bela Kun.

Copenhagen. — The Hungarian public prosecutor has issued an announcement that proceedings will be begun against all individuals charged with crimes during the Bela Kun dictatorship, and that steps have already been taken for their arrest and extradition, according to advices from Budapest.

Another announcement says that it is intended to prosecute Bela Kun and his associates for murder, robbery and forgery.

To Combat High Cost of Living.

Winnipeg. — Concerted action by all military and labor organizations in a fight for the reduction of the high cost of living was suggested in a letter from the Order of Railway Conductors, division 604, considered at a meeting of the Army and Navy Veterans' association executive. The suggestion was unanimously adopted, and a committee was appointed to co-operate.

Prince's Visit to U.S. Is Uncertain.

Ottawa. — Nothing is known as yet at the capital as to when the Prince of Wales is likely to visit the United States or the duration of his stay in that country. No decision will be reached in regard to the matter until later, but it is certain that the prince cannot leave Canada until the conclusion of his Canadian tour.

Rome. — The Italian troops attached to the allied expeditionary force in northern Russia left Murmansk on August 9. The Italian military commission accompanied the troops.

British Ambassador To U. S.

Viscount Grey Has Accepted the New Post Temporarily.

London. — Viscount Grey, former British secretary of state for foreign affairs, has agreed to represent the British government at Washington, pending the appointment of a permanent ambassador.

Viscount Grey of Fallodon (Sir Edward Grey) comes to the United States to represent the British government after a brilliant career as head of the British foreign office. For eleven years, momentous in the political affairs of Europe, he was secretary of state for foreign affairs, from December 11, 1905, to December 11, 1916. Owing to several occasions during that period, it was the initiative of Sir Edward Grey that caused the gathering clouds of war to disappear. It was he who made the last effort to prevent the great European war when he urged the ambassadors of the leading powers to meet and discuss the situation in an attempt to put off hostilities. His effort failed through the attitude of the German government and the German emperor.

Gladstone, under whom Sir Edward served in his younger days, described him thus:

"I never knew in a man such aptitude for political life and such disinclination for it."

Since his retirement from the foreign office, Viscount Grey has been living in retirement in Northumberland. The new ambassador's eyes began to trouble him in 1918 and at one time it was reported he was totally blind. This report was exaggerated, but the viscount has difficulty in reading, although his eye trouble has improved somewhat.

General Currie Is Defended

Officer Says Criticism for Canadian Losses at Passchendaele Not Warranted.

Kington, Ont. — Speaking at the banquet tendered to the visiting delegates to the convention of the Union of Canadian Municipalities, General Sir Archibald MacDonell, the new commander of the Royal Military College, defended General Sir Arthur Currie from the criticism levelled at him because of the losses suffered by the Canadians at Passchendaele. General MacDonell, "the man who took Hill 70," said he was present when Sir Douglas Haig told General Currie to take Passchendaele, and the Canadians took it, after the Australians, New Zealanders and British had failed.

Referring to the Canadian casualties, the speaker said, according to figures recently published, the Canadians suffered the lowest percentage of losses and made the highest percentage of gains.

Another speaker was Mayor Hardie, Leithbridge, who declared for a middle course on the liquor question, neither too wet nor too dry.

Must Leave Dominion

Schoppelei Ordered Deported By Immigration Board of Inquiry.

Winnipeg. — Oscar Schoppelei, branded as an undesirable alien, and ordered deported by the immigration board of inquiry, must leave Canada. The Manitoba court of appeal refused to grant an application made by counsel in Schoppelei's behalf that the deportation order be annulled and all proceedings quashed. The high court in its written judgment found that the order for Schoppelei's deportation was based on two grounds: first, that he had come into the country by misrepresentation; and secondly, that he had refused to answer certain questions put to him by officials. Their lordships pointed out under section 23 of the immigration act they had no jurisdiction to interfere.

Six Months On Ice Floe.

Edmonton. — Six months adrift on an ice floe in the Arctic sea, cut off from all civilization by miles of deep water, such was the experience of Storker T. Storkersen, who arrived in the city last night, from the great northern wastes. Observations of great scientific value were made while the party was on the ice floe, but these will not be fully discussed until Storkersen meets his chief, Stofansson in Barne next Saturday and prepares his full report.

Conference of Brewers.

Atlantic City, N. J. — Believing that a revision of feeling against prohibition can be concentrated for the repeal of the liquor statutes, the brewers of the nation have called a biennial conference here for September 28. The meeting will continue a week.

Harvesters Coming From The East

Henry Ford Won Verdict

Is Awarded Six Cents Damages Against the Chicago Tribune.

Mount Clemens, Mich. — A jury awarded Henry Ford six cents damages against the Chicago Tribune for calling him an anarchist.

Orvy Hullett, foreman of the jury, said that they took "nine ballots that I can remember," the first one, according to Leonard Measel, another juror, standing 8 to 4 in favor of awarding Mr. Ford some damages. "Does the award of six cents above express the feelings of the jury as to the case?" a reporter asked Mr. Hullett.

"It just about does. That expresses our judgment."

Attorney Alfred J. Murphy, for Mr. Ford, said: "The important issue in the case has been determined favorably to the plaintiff. He has been vindicated. Money damages were entirely subordinate and were not sought by Mr. Ford. He stands not only vindicated but his attitude as an American citizen has been justified after a trial which raised every issue against him which ingenuity and research could present. His friends are entirely satisfied."

Weymouth Kirkland, one of the counsel for the Tribune, said: "We consider it a victory for the reason that Attorney Alfred Lucking, in closing for Mr. Ford, stated that anything less than substantial damages would be a defeat for his client."

Funeral Of Late

Andrew Carnegie

Service Was As Simple As Were the Tastes and Habits of the Man In Life.

Lennox, Mass. — The funeral of Andrew Carnegie was held at Shadow Brook, his summer home in the Berkshires. There was no eulogy and there were no pall bearers. The service was as simple as were the tastes and habits of the man in life. Fully one half of the sixty persons present were members of the household. The others were intimates of the family.

The ritual of the Presbyterian church was used by the officiating clergyman, Dr. W. M. Pierson Merrill of the Brick Presbyterian church, Fifth avenue, New York.

A mixed quartet from this church sang the three hymns which have been favorites of the philanthropist and former iron master.

Interment was made in a lot chosen by Mr. Carnegie some years ago, at Sleepy Hollow, near Tarrytown, N.Y.

"Bavarian Free State."

Copenhagen. — A despatch from Bamberg, under date of Tuesday, says that the Bavarian diet has adopted a constitution for the "Bavarian free state." There were three dissenting votes. A Socialist amendment to the constitution, abolishing all titles of nobility, was rejected.

Poverty is no disgrace, but it's a mighty good excuse for heading off a borrower.

Board To Deal With High Cost Of Living

Ottawa. — The Canadian board of commerce has been officially constituted, with Judge H. A. Robson, of Winnipeg, as chairman, and W. F. O'Connor, K.C., former cost of living commissioner, as second member, and these two gentlemen have had a conference with the government and have already started work. Judge Robson has arrived in Ottawa and shortly afterward met members of the government. The third member of the board, it is expected, will be named within a couple of days.

The board will act under the Combines and Fair Prices act and is given power to institute investigations on its own motion or at the request of ministers or other responsible persons bringing matters to the notice of the board.

When seen by the Canadian Press, limited, Judge Robson was emphatic in his statement that there would be no fuss and formalities attached to the working of the board. "This is to be a people's court," he declared, "and to be so it must be easy to approach. Any bona fide citizen, who has a just cause for complaint will find us ready to give him a hearing and we will get down to work just as soon as possible."

Winnipeg. — Rush of men from the east for the harvest fields of the west has started in earnest. Eighteen thousand have been asked for by the farmers and 7,000 of them had reached the city, which is the chief distributing centre. Over 6,000 traveled by the Canadian Pacific railway. The remainder came on the Canadian National, reaching the Union depot Thursday evening. Over 2,000 are expected at the Union depot Friday, while the Canadian Pacific is also running several trains.

Special arrangements had been made by the railway companies for the speedy despatch of the excursionists to their various destinations. Two long trains, heavily loaded with the harvest help, were sent west during the day, one in the morning and the other toward midnight, while a number of men left the city on local trains for points in Manitoba.

Officials of the Manitoba and Saskatchewan governments, detailed for the work of placing in positions the harvesters, had an extremely busy time of it, for they booked 2,400 men, one-half of this number being for farms in Manitoba and the other half for the harvest fields of Saskatchewan.

In the case of Manitoba the wages were announced as \$10.00 a day for stacking and \$5 for threshing, while for positions in Saskatchewan a straight \$5 was offered.

Problems Of Two Countries

Pertinent Question Asked In British House of Commons Regarding U. S. Affairs.

London. — In the house of commons, the Hon. Walter E. Guinness, member for Suffolk, asked Andrew Bonar Law, the government leader, to give the day's discussion over to the present position of the black races, but his request was refused. The questioner responded by asking whether it would not be a graceful act of reciprocity to place at the disposal of the United States the benefit of British experience in governing negroes in return for the discussion of Irish affairs in the United States senate.

Captain William Wedgwood Benn, Liberal member for Leith, asked Mr. Bonar Law to do his best to prevent efforts to sow dissension between Great Britain and America by alleged humorous questions.

On a Little Visit.

Berlin. — With the permission of the Dutch government, the former German crown prince has just spent several days with his wife and children at Soden, Prussia, and accompanied them part of the way back to Potsdam, according to the Lokal Anzeiger. The newspaper adds that Frederick William has now returned to Holland.

Hungary Seeks Loan.

Berlin. — A group of Hungarian banks will attempt to negotiate a loan for the new government at Budapest, according to despatches received here, the government, having been unable to borrow the 1,500,000 crowns sought from Austro-Hungarian banks.

Sylvester: How did you make Miss Brown think you were the finest fellow in the world?

Chollie: I sent her nineteen beautiful roses on her twenty-seventh birthday.

HER LITTLE GIRL HAD DYSENTERY

Bowels Moved as Many as 25 Times a Day.

Dysentery manifests itself with varying degrees of intensity, but in well marked cases the attack is commonly preceded by some amount of diarrhoea, which gradually increases in severity, and is accompanied with gripping pains in the abdomen. The discharges from the bowels succeed each other with great frequency, and the matter passed from the bowels, which at first resemble those of ordinary diarrhoea, soon change their character, becoming scanty, mucous or slimy, and subsequently mixed with, or consisting wholly of blood. Never neglect what at first appears to be a slight attack of diarrhoea or dysentery may set in.

Cure the first symptoms by the use of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Joe V. Tanton, R. R. No. 8, Watford, Ont., writes: "My daughter was taken down, two years ago, with dysentery, and I could find no help for her until I got a bottle of Dr. Fowler's Extract of Wild Strawberry. She was only two years old, and she was so weak that she could not move a day, and mostly blood. We had the doctor several times, but no relief came until we used 'Dr. Fowler's.' I would not be without it in the house, for a good life."

Be sure and get "Dr. Fowler's" when you ask for it. Price, 35c a bottle; put up only by The T. M. Burns Co., Limited, Toronto, Ont.

If a man is unable to stand properly he should sit down and enjoy it.

Minard's Liniment Cures Distemper.

No Monarchy for Hungary.
Berlin. — Archduke Joseph, head of the new Hungarian government, has issued a proclamation in which he affirms that there will be no return to the monarchical system, according to the Tagessblatt's correspondent at Budapest.

Previously the officers and students had proclaimed the archduke king and it was to offset this that he reiterated his loyalty to the republic.

One On Teacher.

Teacher: There is not anything that has three feet. Everything has either two or four feet.
Tommy: I know two things that's got three feet.

Teacher: What are they, Tommy?
Tommy: A yard and a three-legged stool.

About Beans

Home-Cooked Baked Beans Are Delicious

but how seldom the beans are cooked right. Sometimes hard, sometimes mushy, sometimes too wet—or perhaps done to a crisp.

And the hours of cooking they require and consequent waste of expensive fuel.

Next time get "Clark's" Pork and Beans. They are always ready—just heat and serve, and note: Every bean of uniform size—every bean, whole—yet every one cooked to perfection.

They are sold with three kinds of sauce: Tomato, Chili, Plain—Buy the kind you like best, they are all delicious.

"Clark's" will be appreciated by all the family, are most economical—and save the housekeeper work and worry.

The Government legend on every can of "Clark's" Pork and Beans and other good things guarantees their absolute purity.

W. CLARK, LIMITED,

MONTREAL.

British Labor Will Not Act

District Branches Refused To Issue Ballots For Referendum.
London. — Direct action proposed by British Labor's triple alliance in the form of a referendum on political subjects, is said by the Evening News to have been killed by the refusal of the transport workers' federation to take part in it. The newspaper said the federation had decided to have nothing to do with the movement and that its district branches had refused to issue ballots for the referendum.

The triple alliance is composed of the railwaymen, transport workers and miners. The alliance on July 23 decided to take a vote of its members on Labor's political demands, including conscription, Russian intervention, the release of conscientious objectors and the use of the military in labor disputes.

So Tactics.
She: Would you be very miserable if I went away for a long holiday?
He: No, darling, certainly not.
She: Oh, you wouldn't, would you? Well, then I won't go.

DELICATE YOUNG GIRLS

Need New Red Blood to Give Them Health and Strength.

Does your daughter inherit a delicate organization from you? The anemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient out-door exercise and not enough rest and sleep.

It comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes paleness of the face, headache, dizziness following a stooping position, frequent headaches and breathlessness. In a majority of cases constipation is present. There may be no great loss of flesh, but usually the complexion takes on a greenish-yellow pallor.

Cases of this kind, if neglected, become chronic. If taken in time there is no need to worry. The treatment is quite easy and simple. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drugs, are just the tonic needed to remedy this wretched state of health. The noticeable improvement actually begins with the first dose. As the blood is made rich and red, the color leaves the face, strength and activity gradually return and if the treatment is continued the last symptoms disappear. The danger of a relapse is very slight. If any symptom of anemia appears, prudence suggests that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will the trouble be relieved. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for 2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

Seventy-Five Per Cent. Wheat Cut.
Regina, Sask. — Harvesting is well advanced, according to reports received by the department of agriculture. The wheat crop report 90 per cent. of the wheat crop cut, while others estimate a third. It is estimated that 75 per cent. of the wheat crop of the province is cut, with 25 per cent. of the early sown oats. Threshing will be general before the end of the month.

Lachute, Que., 25th Sept., 1908.
Minard's Liniment Co., Limited.
Gentlemen,—Ever since coming home from the Boer war I have been troubled with running fever sores on my legs. I tried many salves and liniments; also doctored continuously for the blood, but got no permanent relief. Last winter when my mother got me to try MINARD'S LINIMENT. The effect of which was almost magical. Two bottles completely cured me and I have worked every working day since. Yours gratefully, JOHN WALSH.

Controller Will Not Give Way.
London. — There is apparently going to be a fight to a finish in the strike of the 200,000 Yorkshire miners. The coal controller told the men's leaders it was impossible to concede their demands. To do so, he said, would mean a strike in every coal field in the country for similar concessions.

No further conference with a view of arriving at a settlement have been arranged. It is believed the strikers' funds will only last another fortnight. Already a quarter of a million pounds sterling have been spent in strike pay.

China At Peace With Germany.
Pekin. — Parliament passed a resolution authorizing the president to issue a mandate declaring that a state of war does not exist between China and Germany. It is considered doubtful whether the mandate will be published and negotiators have discussed terms with German representatives.

W. N. U. 1277

German Exactions Against Hollanders

Forced To Pay Five Years' Advance Income Tax.

Rotterdam, Holland. — Much light is thrown upon the conditions which prevail in Germany by the story related by a prominent Hollander upon the occasion of his recent return from that country. His wife is a German, and he has considerable interests in Germany, where he remained during the war. Wishing to return to Holland, he was not permitted by the government to do so until he had paid five years' advance income tax, as a security that he would return, calculated on the average yearly income tax paid during the past five years. The advance income tax paid by this Hollander amounted to 270,000 marks.

Shoes, he says, are very dear in Germany, but he bought for his wife costing him 500 marks. The government has placed a maximum price on foodstuffs. The large farms are controlled by the wealthy men of the country, and they have refused to sell their farm products at the maximum prices. Foodstuffs are now scarcer than during the war. The meat obtainable has to be scraped before using, because it is so bad. Fresh meat is difficult to get, and a great amount of salt meat is used. A cake of chocolate, which could be bought in Holland for 10 cents, would sell for 15 marks in Germany.

Denkekin Captures War Material.

London. — General Denkekin's advance is continuing along the greater part of the southern Russian front against considerable Bolshevik resistance, the war office announced.

Kamishin, which was taken on July 28, yielded 11,000 prisoners, 60 guns, 150 machine guns and an immense amount of war material, it was added.

For Asthma and Catarrh. — It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from asthma and catarrh will find that the Oil when used according to directions will give immediate relief. Many sufferers from these ailments have found relief in the Oil and have sent testimonials.

Road Work for Farmers.

Edmonton. — Reports to farmers who have been hit by the drought will take the form, it has been decided, of road work, on which men who cannot leave home for work in other parts of the country will be employed. It is the intention of the public works department to discharge a considerable part of the regular road program, and to change its road-making program for the year in such a way as to provide employment for the farmers. This policy has been adopted, according to Premier Stewart, in preference to any scheme of food distribution or similar relief, and is regarded by the government as likely to prove sufficient to meet the situation during the summer and fall months.

Minard's Liniment Cures Garget in Cows.

Jap Arsenal Workers May Strike.
Tokio. — A committee representing 24,000 workmen in the military arsenals of Tokio petitioned the government for an increase in wages ranging from 20 to 50 per cent. If their demands are not granted, it was stated, and a strike would be called. As four thousand persons were leaving the arsenals the guards closed the gates because the men had not formed in line as usual. The workmen forced the gates and in the clash fifteen persons were injured.

It is hard to get what you want when you don't know what it is.

FACE DISFIGURED WITH PIMPLES

Itched and Burned. Scarcely Slept. Cuticura Heals.

"Pimples affected my face. They were large and always itched, and they were scattered all over my face. They afterwards turned into scales and when they fell off they left big marks until my face was disfigured. They itched and burned so that I scarcely slept at all. I had been bothered for nearly two months before I started using Cuticura, and after I had used three boxes of Cuticura Ointment with the Cuticura Soap, my face was completely healed." (Signed) Miss L. Burns, St. Bazile, Que., June 6, 1918. Use Cuticura Soap, Ointment and Talcum for all toilet purposes. For free sample each of Cuticura Soap, Cuticura Ointment, and Talcum, write to: Dept. A, Boston, U. S. A. Sold everywhere.

100% SANITARY
Germs flourish in the seams and joints of ordinary milk-pails. No matter how carefully you scald and cleanse, you never can be quite sure that some crevice does not harbor a colony which will make trouble later on.

EDDY'S INDURATED FIBREWARE MILK PAILS
are 100 per cent sanitary, because there are no joints or seams to cleanse. They are made in one piece, from wood pulp, under tremendous hydraulic pressure. The hard, glazed surface is baked on at high temperature, and is absolutely impervious to liquids. Eddy's Milk Pails are practically indestructible. They cannot be dented, and no cracks can develop on the surface. Rust cannot attack them and no ordinary accident will do them injury. They cost no more than ordinary milk pails. They will save you labor now, and in the long run they will save you money.

MONEY ORDERS
The safe way to send money by mail is by Dominion Express Money Order.

Attempt To Seize Ship

Crews Placed Mine-Sweepers Abreast To Block Harbor.

Rotterdam, Holland. — News has been received at Rotterdam, from an officer of an American cargo ship, of an attempt by the German Bolsheviks to seize his ship while it was at Emden, Germany, on May 30. The crews of the government mine-sweepers, in an effort to aid the Bolsheviks, placed the mine-sweepers abreast to block the harbor, so that the cargo ship, which they wanted to seize, could not leave the port. The government finally succeeded in getting this ship out of the harbor. On the previous evening, after the foodstuff cargo from this ship had been placed in storage houses ashore, the Bolsheviks endeavored unsuccessfully to obtain possession of it. The same evening there was a good deal of shooting between the Bolsheviks and the government forces, and damage was done to buildings in the center of the city by the Bolsheviks. The government forces finally succeeded in getting affairs in hand.

Must Be "Republic of Austria."

Paris. — The supreme council of the peace conference, it was announced, has advised the Austrian delegation that the Allied and associated powers have decided that the new Austrian government must be called the "Republic of Austria." This decision was taken as a result of notes from the Austrian delegation in which they referred to their government as "German-Austrian."

These notes related to proposed changes in the Austrian peace treaty. In some cases the only alteration in the clauses was the change of the Austrian government's name to German-Austria.

JARROW

Clayton Reese has gone to Edmonton to work for a time.

Mr. and Mrs. K. Carter have moved into their new home north of town.

Mr. Allen is in charge of the Jarrow pulpit now and will hold services regularly every Sunday evening at 7.30 p.m.

Quite a number of Jarrow people attended the Irma Fair on the 15th and some prizes were brought back to Jarrow.

The garage has a new sign on two sides of their building. Makes quite an improvement.

R.T. Meakins is having a new Massey-Harris binder set up to cut his crop with.

A. Firkus has not returned to the farm yet. His son Ambrose is running the home ranch.

Andy McGregor has gone to Winnipeg with a load of stock to market.

The Bank have had their premises papered and painted.

A good deal of the wheat is in stock and everybody is wearing a smile after all.

The cattle on Carl Larsen's farm broke into the barn while he was away, and almost demolished the whole building.

Everybody is pumping water for the stock these days.

P.R. Bamsey, of Kinsella is still hauling lumber from Jarrow for his house and barn.

A grading outfit is now at work grading the road from Kinsella to Tofted.

Council Minutes M. D. No. 423

Councillors of the Municipal District of Battle River No. 423 met in council chamber, Councillors present, Messrs Lennon, Smallwood, Santee, Golding, Donoghue and McDowell.

Minutes of last meeting were read and on motion of Smallwood were adopted as read.

Moved by Smallwood that Sec'y inform Icart Bros that unless abstract is in the hands of Sec'y by Aug. 15th they can consider their application for seed grain cancelled. Cd.

Moved by Donoghue that Sec'y notify Dept of Public Works that this council have no objections to the Dept leasing the original road allowances between the NE 1/4 19, and NW 1/4 20-44-8 with and road allowance lying east of the S 1/4 19-44-8 with until such time as said road allowances are required for road purposes. Cd.

Moved by Santee that refund of taxes asked for by Hugh Muir be disallowed. Cd.

Moved by Smallwood that this council do not give any advances to farmers for the purpose of buying fall seed. Cd.

Moved by Donoghue that applications be received by the Sec'y for an assessor for the M. D. of Battle River No. 423 up to the time of next council meeting. Cd.

Moved by Lennon that the follow-

ing accounts be passed and paid:

Carried.
Moved by McDowell that council adjourn to meet Sept. 10th. Cd.

Communication Re Manville Hospital

Dear Mr. Editor,

Would you perhaps give a few lines again by way of memorandum as to our situation in regard to the Manville Hospital. The hospital board might be interested to know that we haven't yet fully acquiesced to their dictates. In the matter of the tax enforcement return we have a strong protest to make. Our protest takes the form of having been wrongly drafted into the district against the popular wish of the community at large. (referring to the two townships lying south of the Buffalo Coulee in said district.) This has not been what could in any way be termed government with the consent of the governed. The whole scheme has the coloring of having been railroaded through. No particular effort was made to even make aware these two townships that a proposed hospital district was under consideration, still less to find out our wishes about it. In fact not only was no effort made to let them know of it, but we even have excellent reasons to believe that it was really wished to keep us in the dark about it as much as possible and hurry it through. The correct thing of course in this or any other important by-law involving much money was to have called a local meeting of ratepayers in the school houses respectively of these two townships, told them of the scheme and asked for an expression of general feeling in regard to it. Whether or not many would have turned out to the meeting or whether it would have been a representative meeting would have made no difference. The right thing would have been done. It is a matter of absolute certain fact to everyone, us and them, that they had no intention of doing anything of the kind. In fact retiring Councillors say the motion was brought up at a council meeting and they were asked to vote at once there and then on the hospital, without having been given previous notice. Being in favor of Rural Hospitals generally and without having sufficient time given them to weigh all eventualities, such for instance as our possible objection, even the one or two Councillors that would have given us consideration were influenced to cast their vote. This looks still further to us as part of a scheme, because if it had laid over even a short time, discussion would have taken place and a certain protest would have been forthcoming from these two townships, as we are situated either

geographically, to make it consistent to be connected with Manville nor by our habitual trading centres and general dealings. The name of the gentleman, one of the Councillors, at that meeting who appeared to be a prime mover is well known and there's no need to mention it, and by the way any personal feeling should be kept entirely away from anything of this sort. They are no doubt serving the interests of their divisions and we for our part are not by any means hostile to the Rural Hospital scheme. I think the most or all of our townships would come through willingly if given only ordinary consideration in the matter, that is to have the building on the line of railway that serves us viz the G.T.P. and to be at least let known about it while it's being done, and if no district is formed there, for us also not to be in any district and certainly not to pay taxes to Manville. Such reasons as these above are not legal points on which we can base a case, we know that quite well. No matter how raw a deal may exist in reality, there has to be technical points obtained and laid down in detail, such as will stand tab with lawyers and judges in a court before the case will stand a hearing according to our laws, customs and institutions. But we are not without such. If, as we are, we are compelled to get down and pick points before anyone will believe we've been given a raw deal we can mention the incidents in connection with the advertising. The act plainly says that it must be advertised in the paper or papers which serve the district. That's a strong point for us. It was only advertised in the Manville paper. It should at least have been advertised also in the Irma Times. It's well established that the Manville paper does not serve our district. In fact so far from serving it, we claim that not one single copy was coming to the south side of the Coulee, and that the Manville editor had for some time ceased to even solicit subscriptions from this side; that's a strong point. It was also rather a bad break for the hospital board to make not to advertise it in the Irma paper. Of course we have no doubt they dared not, as it would have certainly resulted in the loss of these two townships from their district, and an added burden of taxes for them, after losing us out, whereas if they put it through without us knowing, once having obtained their point they might trust to the fact, that farmers cannot organize to keep us in. The Irma Times does serve this district. It can be guaranteed any such matter would have been common knowledge at once if only a few lines had been inserted in it. If there were no Irma paper and violence was done to the meaning of words, the Manville paper might have been construed as serving this district, but as the case was, if the Manville paper does serve it, what does the Irma Times do? According to this reasoning the advertising might as well have been exclusively in the Irma Times and to have expected the people north of Manville to have been informed of it in that way. A gentleman across the Coulee was kind enough to inform us that ignorance was no excuse of the law. Might be. But when our ignorance springs from the fact that those whose duty it was to make us to know, had not complied with the said law in their advertising, we are inclined to dispute that old gag and counter claim it looked suspiciously like a plant. We've been told even so that the full time of such advertisement was not filled even in the Manville paper alone, that the ad had not run long enough before the election was called. Then about posting bills, when the act speaks of posting bills for a specified time previous to the election, and to find that that time had been cut down pretty short, we might well have another cause of complaint. We made a protest about being in the district but the time constituted by law for such protest had elapsed before our petition was received. It's not to be wondered at that if the community did not know of, and had not been told of a proposed hospital district they also would not know what limit of time was set in which to

allow them to protest; here's where a meeting of ratepayers in the school house BEFORE the district had been formed would have been very appropriate. However whether or not we have any method in our madness, the Hon. McKay, having been persuaded by our numerous and well based claims, was pleased to secure a meeting on purpose to investigate the merits of our case; which said man, having looked over the general topography of the country, and having met a thoroughly representative assembly of ratepayers at the schoolhouse in the presence of a very large number unhesitatingly pronounced us to be absolutely in the right. He even denounced the hospital board to us as having acted in a partisan manner, and after he had closed the meeting, remarked privately that it was about time we saw it and that we were represented by a Councillor who would at least remember that we were on earth and might possibly have wishes about things ourselves. As to why we are not out now, we hardly know. Perhaps it's because we stay at home and mind our own business too much and don't get out and raise a row and fight enough. We don't to have to fight, it's hard on the eyes, but if we don't hang together, we'll hang separate and we might just as well be in the hospital from fighting as not because if we don't fight we'll be in it any way.

The man the minister sent down promised us we should be taken out at that next session. Also the Hon McKay spoke to that effect in Calgary in a public meeting, even mentioning that there were only about twenty or thirty or so people concerned, but that an injustice had been done them and it must be righted. Still after the session has come and passed, we have not yet found ourselves taken out. Other people under different circumstances, and in different connections, such for instance as business men in the cities, would probably have taken legal action against the other party, which in our case would be the hospital board, but we as farmers don't know anything about that, all we know is how to feel and we don't know how to do that very well when we have no grain, so we'll hope that the amendment the Hon. McKay made will eventually effect our release.

Now Mr. Curtis's love letter is to hand, it isn't exactly a love letter though, but we can call it that, but for my part I don't intend to be jollied into paying this yet. Probably the Manville lawyer counts to a certain extent on the well known fact that farmers will begin to get scared as soon as they see a legal notice, and that they cannot work together for long. Rather, if nothing else has been done before, I'm much more likely to say this over again or something similar to Judge Taylor at the court at Vermilion on Thursday, Oct. 2nd and ask for a piece of judgement. There's no need that they should willfully misunderstand us, we want to be released from the Manville district, first and above all, whether or not a district is formed south doesn't alter that at all, it's true we are not hostile to rural hospitals generally, and probably the majority are in favor of them, but we don't want to be in the Manville one anyway. That ought to be quite plain by now, we have said enough about it, and given reasons enough why it is not convenient and would be of no benefit to us.
